

Proline BBQ Elite 34 & 44

Bring professional-level grilling performance to your outdoor kitchen with the Proline Elite Built-In Gas Grill. Constructed from durable 304 stainless steel, the Elite combines powerful cooking performance with a clean, modern design built for outdoor use.

High-performance H-burners deliver consistent heat across the cooking surface, providing the versatility needed for everything from everyday grilling to high-temperature searing. Hexagonal stainless steel cooking grates provide a durable cooking surface, while flame tamers help distribute heat and manage flare-ups.

A dedicated rear infrared burner adds flexibility for rotisserie cooking, while illuminated control knobs provide clear visual feedback during operation. Available in 34" and 44" widths, the Elite delivers powerful performance for outdoor kitchens of varying sizes.

Dimensions & Electrical Requirements

Specification	Elite 34"	Elite 44"
Overall (W × D × H)	34.1" × 25.7" × 21.1"	44.1" × 25.7" × 21.1"
Cutout (W × D × H)	32.875" × 21.25" × 8.5"	42.875" × 21.25" × 8.5"
Electrical Req.: 120V/60Hz, dedicated 15A GFCI-protected circuit
