

Proline BBQ Select 32 & 40

Bring powerful, dependable grilling performance to your outdoor kitchen with the Proline Select Built-In Gas Grill. Constructed from durable 304 stainless steel, the Select combines versatile cooking capabilities with a clean, modern design built for outdoor use.

High-performance I-burners deliver consistent heat across the cooking surface, providing the flexibility needed for everything from everyday grilling to high-temperature searing. Stainless steel cooking grates provide a durable cooking surface, while flame tamers help distribute heat and manage flare-ups.

A dedicated rear infrared burner adds flexibility for rotisserie cooking, while illuminated control knobs provide clear visual feedback during operation. Available in 32" and 40" widths, the Select delivers dependable performance for outdoor kitchens of varying sizes.

Dimensions & Electrical Requirements
