

The PLJW 125 is a low-profile under cabinet range hood that proves looks can be deceiving. This range hood comes with a 900 CFM dual blower to keep your cabinets and wall stain-free. Your kitchen air will stay fresh, too. Our customers love the power; they were able to sear steaks and do wok-style cooking while the hood pulled the smoke out of their house with ease. The stainless steel push buttons are readily accessible, making the hood easy to operate while you're multitasking in the kitchen. The high-efficiency blower is four-speed, so you can adjust it freely based on your cooking preferences. This under cabinet hood also features bright LED lights that will last you years. You'll also enjoy dishwasher-safe grease filters which save you valuable time in the kitchen. The PLJW 125 has the modern look to match its incredible convenience. Manufactured with a brushed 430 stainless steel, it'll impress you and your guests.
