

The ProSW

is a beautiful addition to your kitchen. It is the perfect replacement for your over the range microwave. Unlike OTR microwaves, this vent hood has more than enough power to clean your kitchen air with incredible efficiency. The 1800 CFM dual blower is unprecedented for a hood of this size and it is a fantastic choice for any cook. If you cook less frequently, you'll love the lower speeds and your hood will last for many years. If not, you can enjoy the incredible power of the higher speeds to keep up with the smoke produced by your cooking. It comes with durable dishwasher-safe baffle filters that trap large grease and dirt particles from your cooking. You don't have to spend time and effort cleaning your filters and you can focus on cooking delicious meals for yourself and your family. Choose the ProSW to add a finishing touch to your kitchen remodel.
