

The ProVWC with a chimney is an incredibly versatile range hood. You have the choice of a powerful 1300 CFM inline blower or a robust 1200 CFM local blower. The inline blower is a fantastic option if you want an ultra-quiet kitchen. With the blower inside your ductwork, you and your family will barely notice the hood is running while you're in the kitchen. With the ProV, you'll also enjoy dimmable Halogen lights. These are convenient especially during night time when you don't have much light over your range. You can also control the blower speed using the dial knobs located under the front of the range hood. This wall range hood will last you several years, thanks to its durable 430 or 304 stainless steel finish. Cook comfortably and efficiently with the ProV WC.
