

The PLJW 101 is a sleek and powerful vent hood. This wall range hood is rated at 1000 or 2000 CFM, which is unprecedented power for a residential hood. The 101 features a modern four-speed black touch panel. With up to 2000 CFM, you can cook comfortably on the lower speeds and enjoy an ultra-quiet blower. The max speed is so powerful that you'll likely just need it for emergencies. But it is incredibly convenient in a pinch. The PLJW 101 features beautiful, smooth rounded edges. You will also love how easy it is to clean the baffle filters; just place them in the dishwasher and you're done. To make cooking easier, the LED lights illuminate your cooktop. Not only that, but you can keep your food warm and ready to serve by using the heat lamp sockets in the back of the hood. You won't regret buying your new PLJW 101 range hood.
