

The PLJW 185v2 Are you struggling to find space in your kitchen for a range hood? Check out our low-profile 5 inch tall PLJW 185v2 under cabinet range hood. What this range hood lacks in height it makes up for in strength, driving 600 CFM of air at just five inches tall. Offering a 5 inch tall range hood that still embodies such a powerful blower motor truly is unprecedented. Control this hood with no issues using its modern stainless steel push buttons. The best part is it will accommodate a small area, so if you don't have a ton of space from the bottom of your cabinets to your stove top, this hood might be just what you wanted! Our 185 model is our biggest seller based on its price point and blower capacity. It is one of Proline's most affordable range hoods. This under cabinet range hood features two energy-efficient LED lights for efficient cooking and dishwasher safe baffle-style filters for quick convenient cleaning. This hood is guaranteed to brighten any kitchen without breaking the bank!
